Purple

# APPAREL

## REDHEADED STRANGER

BY REVOLUTION CANNABIS

**Top Terps:** Myrcene

**Aroma:** Musk, fruit, and pine

**Effects:** Though this strain is typically known for its energizing qualities, this batch contains over 25,000 mcg myrcene which creates a more physical, cerebral, and relatively clear-headed experience.

# Apparel

We believe the proper recognition of your brand is facilitated by a print partner that understands your industry. By leveraging unique custom products our bespoke apparel solution guarantees your employees and fans are truly representing your brand on a higher level. Our clients have seen firsthand the transformation in user experience by just elevating employee gear. In other cases, our clients have found great success offering custom merch to their customers through non-cannabis retail sales, giveaways, and more!

# EMPLOYEE UNIFORMING

We know each business operates uniquely with many different levels of representation. While corporate uniforms might work for some, others can sport casual styles, and together from C-level downwards all employees can represent your brand appropriately.

# FAN GEAR

In an industry full of lifestyle, fans are thrilled by wearable gear that can be shown off time and time again. The growth and competition of this industry in our local area is one reason why you'll want your fans showing off their favorite brand.

# HEMP

## CLOTHING FACTS

Hemp is a variety of *Cannabis sativa* grown industrially for use in textiles, construction materials, oils, foods, and more. Hemp grows tall, with fibrous stalks and has very low, non-intoxicating levels of THC.

### SMALL FOOTPRINT

Hemp is a hearty crop that can grow nearly anywhere in the world, from the Arctic to the equator. It requires just **half the acreage** of cotton, and produces up to 3 times more fiber than cotton on the same amount of land.

### NATURALLY CHEMICAL-FREE

Hemp grows rapidly -faster than weed!- and unlike conventional cotton requires **no pesticides or herbicides**.

### SAVES WATER

Hemp is a hearty crop that can grow nearly anywhere in the world, from the Arctic to the equator. It requires just **half the acreage** of cotton, and produces up to 3 times more fiber than cotton on the same amount of land.

### REPLENISHES SOIL

Hemp plants purify the soil and its deep root systems help **preserve topsoil** from erosion. Hemp crops don't need to be rotated, and can be grown on the same soil for many years in row without depleting it.

### STRONG & STURDY

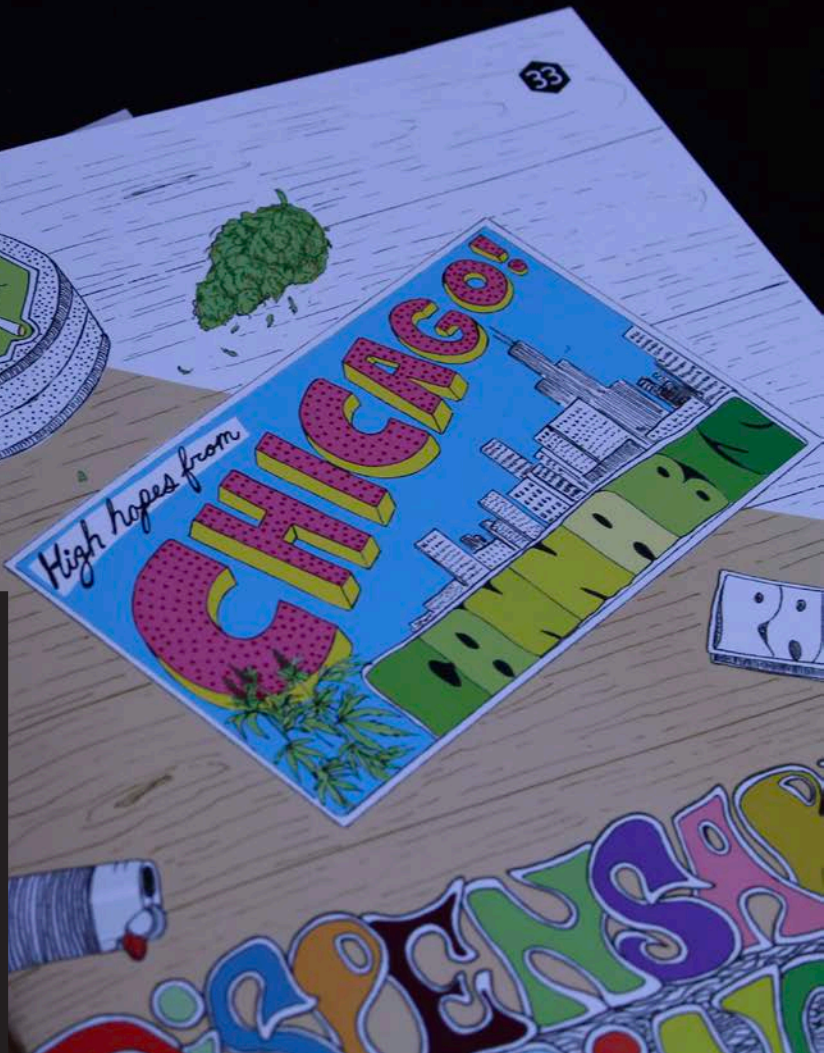

Hemp fibers are **10 times stronger** than cotton and one of the strongest plant fibers out there.

### WEARS WELL

Hemp fabric absorbs dye easily and resists fading. Hemp clothing **resists abrasion** and holds its shape, yet gets softer with every wash. It's also naturally resistant to mold, mildew, and even UV rays!

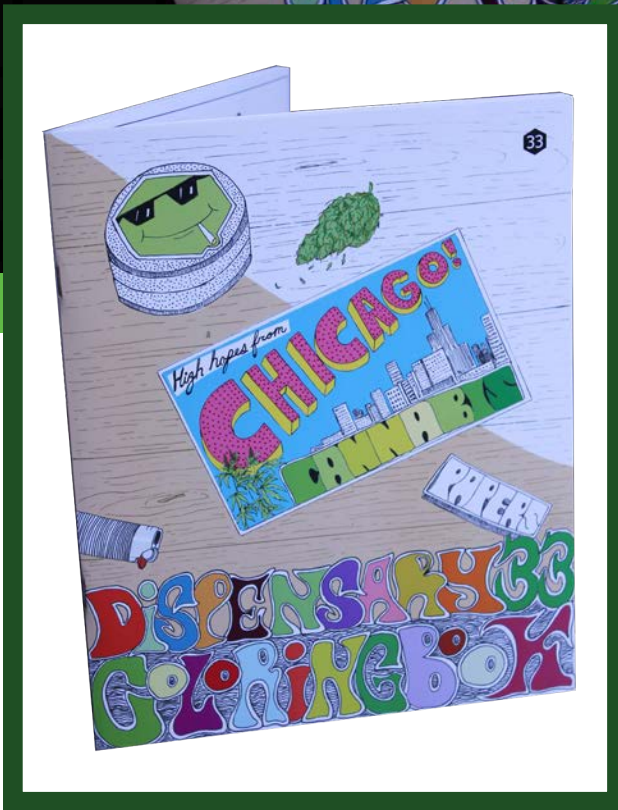

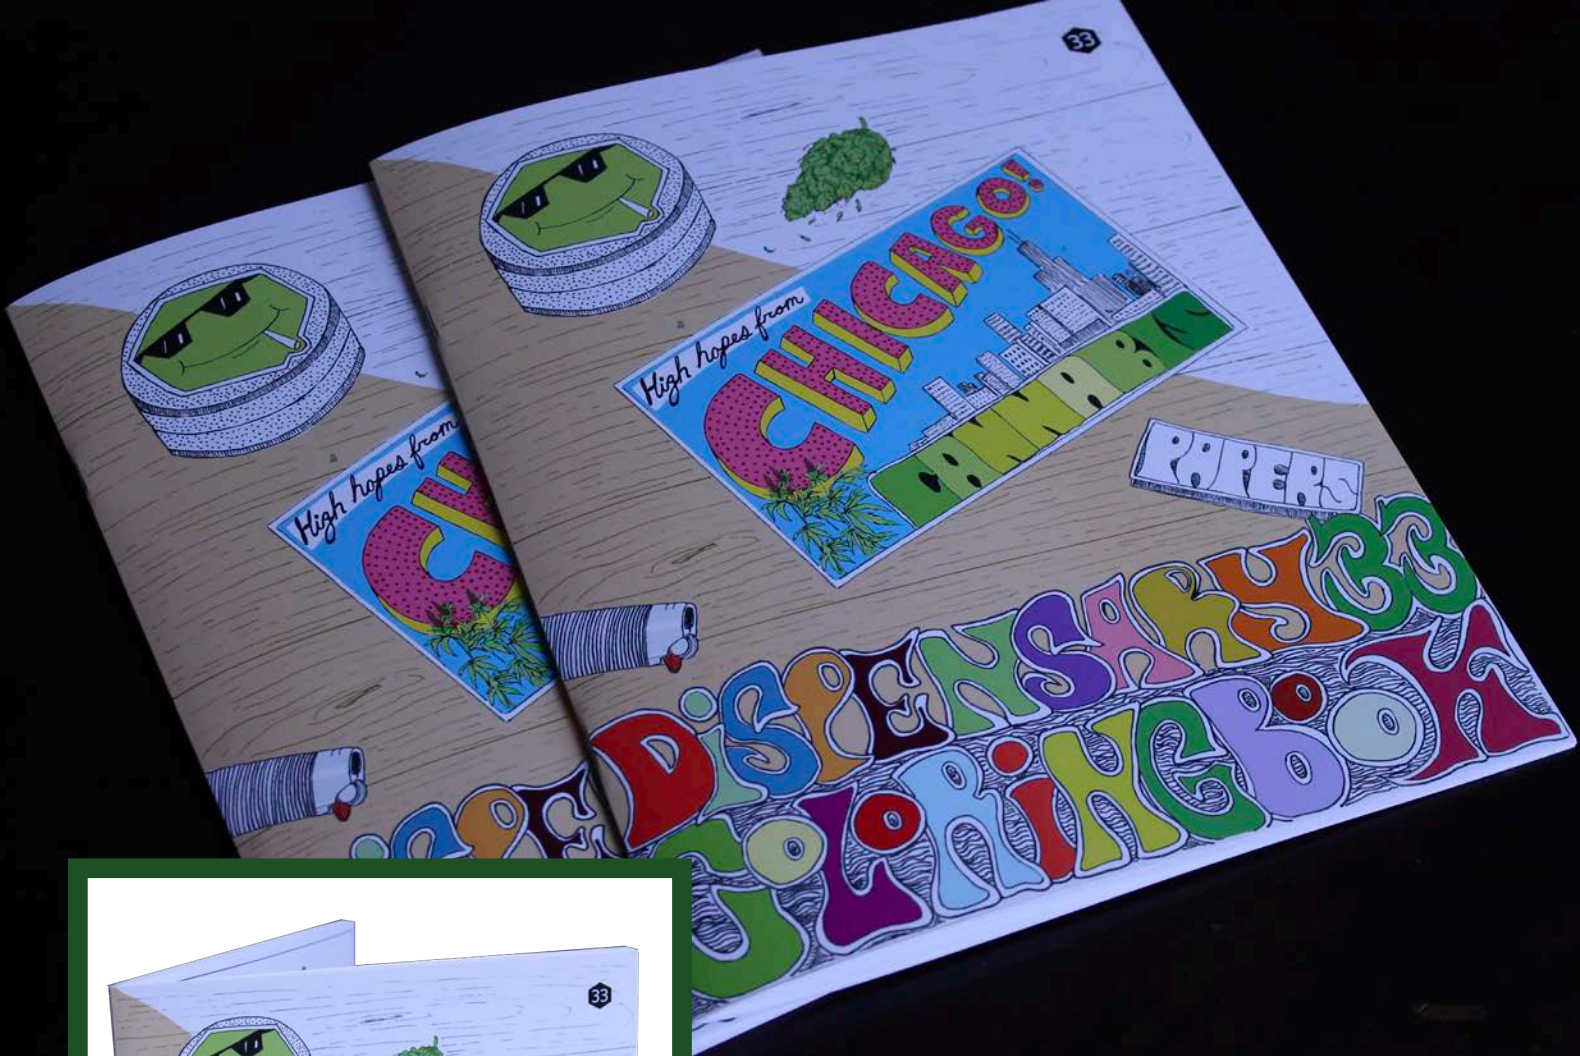

Our understanding of your industry's culture is what sets us apart as a print provider. Know that your work is in the hands of passionate, creative, and contemporary individuals who care about enhancing your end users' experience, beyond the product you sell.

SPECIALTY  
PROJECTS

Specialty projects range from technical print techniques to entirely customized merch product solutions. Our goal is to elevate your brand above the typical gimmicky promotion. When you combine ideas with our team we will design a product that truly entertains and informs your customers.

# CUSTOM STATIONERY

We collaborated with Dispensary 33 to bring to life a coloring book full of employee art! The inside of the book features single sided pages with perforated binding for easy removal and coloring. Their coloring book is a great example of our completely custom stationery printing capabilities. With Chicago Signs & Screen Printing it is possible to print magazines, books, fliers, menus, and more entirely custom paper projects in one place.

# PROMOTIONAL ITEMS

Our ability to quickly and reliably source more than 500,000+ products for custom branding ensures that your small, medium, and large promos are covered. Small one-time giveaways such as buttons, pins, and stickers are great to keep on hand for frequent use. When it comes time for that special event, we can help to scale promo solutions with products like umbrellas, home décor, corporate partner thank you's, and swag boxes.
