## Apparel

Having worked with many clients in the restaurant industry, we are confident that our apparel solution will be a great fit for your entire team. We offer a range to order routine uniforms, graphic shirts, and finely embroidered products all from the same place. Our catalog is full of products that are appropriate for every level of representation within your business.

## Headwear

All seasons, endless styles, and the highest quality customization options is what makes the headwear division stand out as one of our premier products. We have the ability to customize virtually every part of your choice hat. A complete all over customized hat can have a standard front design, sewn on logo side tags, back embroidery with employee name, custom stitch colors, and more! Our headwear services are nearly limitless, so get creative and consider a truly unique custom hat.

Stuff  
for  
your  
Fans!

# THINK ABOUT THIS.

When purchasing gear for your fans, consider apparel options that are comfortable, sporty, and up to date with current styles. Remember... each shirt has the opportunity to be on a “walking billboard”, so do your best to make sure it doesn’t end up at the back of the closet! Use this same concept to help guide your other merch decisions!

## Magnets, Stickers, Koozies & More!

An easy affordable way to quickly connect with customers in a physical way. Combine a cool piece of art with your brand's name to make an advertising grab that will be used and seen over and over again by customers, their friends, and others! Take advantage of options like die cut stickers and magnets, and extend your creativity with special effects materials. These products tend to be significantly cheaper with large orders, so consider quantities of 100 or more for your buttons, pins, and other small promos.

## Totes and Bags

Customized totes and bags are one of our most popular items for clients in various industries. That goes to show, they are the perfect inexpensive promo for any brand or event. We like branded tote bags because they get reused, putting your brand out there while your fans are on the go!

# SIGNAGE MATTERS.

The adaptation all restaurants have made in the past year has proved just how important business signage is. We are prepared to tackle any project whether it focuses on your business identity or operations. That can be social distancing signage, curbside pick-up banners, sidewalk signs, or a complete exterior facelift! With perfect systems to display your brand, you can be assured your official reopening won't be missed.

## Interior/Exterior Signage

Channel letters, hanging signs, and building signage are among the most popular types of signage for the focus of your business' exterior. We customize each sign to the specifications of your business, which means your sign can be in the exact shape as your logo or font, illuminated or static, and with mounting that works for your solution.

## Window Signage

Some form of window signage is typically used on any establishment. Decals are most commonly applied for displaying information like hours and your business name. If you wish to decorate your entire façade of windows in graphics that is also possible! Our perf vinyl allows entire windows to be covered while still preserving transparency. With various material options to choose from we are sure to have the right window décor for your business.

## Sidewalk and Outdoor Signs

Depending on the location of your business you could attract thousands of views a day with sidewalk and outdoor signage. Don't forget about all the foot traffic, bikers, and passerby's your business will see daily. We have sidewalk signage, sail signs, flags, and more which are all great options for the area surrounding the outside of your store front.

## Banners

Banners are easily one of the most versatile types of signage for your business. Their ease of use, durability, and quality make them the go-to option for lots of restaurants, and businesses across other industries. The low cost and great maneuverability of banners is why we recommend them so highly!

## Custom Neon Signage

If your aesthetic calls for neon signage we can customize designs that are perfectly in line with your brand. Neon can be formed into logos, letters, images, and art! Neon signage displays are unique and timeless creations that still get great recognition.

## Custom Promos

Our vast category of promotional products ensures there is something that fits your business perfectly. More traditional options like pens, cards, and bottle openers still work great but we push the limits with access to more than half a million products. Get creative with your restaurant's promotions and find the customization solution with [Chicagosigns.com](http://Chicagosigns.com).
