

## Embroidery

Embroidery is perfect for customizing high quality garments that have thick or luxury fabrics and aren't completely flat. Professional corporate wear such as fleece zip-ups, outerwear jackets, and button ups are all great items to customize with embroidery. Embroidery lasts the longest of all custom print methods, making it perfect for applications such as sports team gear, automotive workwear, construction jackets, and more! If your brand is looking to customize headwear, bags, towels, or blankets we also recommend embroidery.

### DECORATION:

- Machine stitched graphics and patterns.
- 3D puff embroidery and special options.

### DETAILS:

- Highest Quality, long lasting, luxury.
- Single and Multiple color graphic reproduction.
- Great for custom corporate gear.
- Sports teams.

### PRODUCT OPTIONS:

- Great for Apparel, Accessories, and Bags.
- Heavy weight garments, outerwear.
- Caps and Beanies.

## MONEY SAVING TIPS:

### Choose a Standard Product

Choosing a garment from our Standard line is the simplest way to save money when ordering custom apparel. The Standard catalog includes budget friendly products that remain a popular choice for all customers. Enjoy picks from quality brands like Hanes, Gildan, and Fruit of the Loom.

### Plan Ahead

We offer quantity discounts on custom printed products. If you are buying t-shirts for your business, organization, school, or alike, consider ordering bulk up front to save money later! Standard turnaround is 5-7 workdays; orders needing quicker turnaround may accrue rush fees.

### Prepare Your Art

A great print starts with professional high quality art files. In order to avoid extra work and fees from our graphics team, make sure your logo and designs are high-resolution. We prefer vector based art files, saved in workable vector formats such as, .PDF, .AI, .EPS.
